

Local Authority Parking Finances in England 2018 - 19

1 Introduction

This report uses the MHCLG (formerly DCLG) tables on parking income and expenditure for the period from 2014-15 to 2018-19 (UK Government (2019b)). All councils are required to report their financial information to government, in a consistent format, although there may be some differences in interpretation of what that format is and what it covers. Earlier, councils also submitted budgets for the 2019-20 financial year but on a less detailed basis (UK Government (2019c)). These figures are included where appropriate. The figures have to be on an as-received cash basis without any provision for bad debts or any allowance for capital charges (interest or depreciation).

This report covers the 353 local authorities in England but excludes the national parks which declare parking income.

The income and cost headings used in this analysis are:

1. On-street income, expenditure
2. Off-street income, expenditure
3. Total transport income, expenditure

PHIL: The accuracy of this analysis depends on the accuracy with which local authorities complete the annual financial returns they make to central government and upon which this assessment is based.

IVO: These headings do not always agree with accounts published by local authorities because of their different treatment of overheads and allocation of surpluses to other transport projects.

2 Summary

Table 1: Summary of parking accounts for England (£ millions)

		2014-15	2015-16	2016-17	2017-18	2018-19	2018-19 budget	2019-20 budget	Change 2018-19 on 2017-18
On-street	Total Income	800	821	889	954	1,012			6.1 %
	Expenditure	421	407	414	431	439			2.0 %
	Surplus	379	414	475	523	573			9.5 %
Off-street	Total Income	641	671	686	704	734			4.3 %
	Expenditure	335	336	341	355	372			4.9 %
	Surplus	307	335	345	349	362			3.7 %
All parking	Total Income	1,441	1,492	1,575	1,657	1,746			5.3 %
	Expenditure	755	743	755	786	812			3.3 %
	Surplus	686	750	820	872	934	882	919	7.2 %
All England transport	Net Expenditure	4,537	4,331	4,013	3,997	3,857		4,864	-3.5 %
	Parking surplus as percentage of net transport expenditure	15.1 %	17.3 %	20.4 %	21.8 %	24.2 %	NA %	18.9 %	

* Cells may not add up exactly due to rounding.

Total income from parking in 2018-19 in England was £1.75 billion, 5.3 % higher than in 2017-18. On-street income rose by 6.1 % and off-street income by 4.3 % . Expenditure rose by 2.0 % for on-street and by 4.9 % off-street parking. As a result, the combined surplus from both on- and off-street parking was £934 million, 7.2% higher than the previous financial year and 36.1% higher than four years ago.

Local authorities exceeded their 2018-19 budgeted surplus of £882 million by 5.9 %. Their budgeted surplus for this next financial year (2019-20) is £919 million, -1.6% lower than the actual for 2018-19. If the 2019-20 budget is exceeded by the same proportion as the 2018-19 outcome, then total parking surpluses would amount to £974 million.

The on-street parking surpluses must by law be used for transport projects. Overall, local transport net expenditure in 2018-19 fell to £3.9 billion. Without the contribution from parking surpluses, net expenditure would have been 24.2% higher.

Table 2: Summary of parking accounts for England by region (£ millions)

		London	Rest of England	All of England	London percentage
Income	On-street	677	335	1,012	66.9 %
	Off-street	51	683	734	6.9 %
	Total	728	1,018	1,746	41.7 %
Expenditure	On-street	242	197	439	55.1 %
	Off-street	31	341	372	8.4 %
	Total	274	538	812	33.7 %
Surplus	On-street	435	137	573	76.0 %
	Off-street	19	342	362	5.4 %
	Total	454	480	934	48.6 %

Only 7.0 % of London boroughs' parking income comes from off-street car parking as most off-street parking is commercially run. For the rest of England 67.1 % of income is from off-street parking.

PHIL: The parking surplus in London was £454.4 million, 48.6% of the total for England. Incoming commuters and visitors will contribute to parking fees and penalties which are much higher than in the rest of England.

IVO: [deleted whole para]

Table 3: Comparison of parking income and expenditure in across the nations of Great Britain (£ millions, latest year available)

	England without London	London	Scotland	Wales	Great Britain
Fiscal year	(2018-19)	(2018-19)	(2016-17)	(2017-18)	(2016-17)
Parking income	1021.3	728.0	82.6	38.5	1697.6
Parking expenditure	539.6	273.5	40.0	24.1	819.5
Surplus	481.7	454.4	42.6	14.4	878.1
Surplus as proportion of income	47.2%	62.4%	51.6%	37.5%	51.7%

Table 3 provides a comparison with London, England excluding London, Wales, and Scotland for the most recent available data, while Table 4 compares the changes between 2018-19 and the previous year, with the average annual change over the four-year period starting in 2014-15 (or the most recent four-year period for which data is available). In the last year the surpluses for London have increased by 11.9 %, which is more than the average annual increase observed over the preceding four years, which was 10.2 %. For the rest of England excluding London the surpluses have increased by 3.1 %, which is less than the four-year

Figure 1: Parking revenues-England

average annual increase at 6.1 %.

On average, parking surpluses in Great Britain have risen by about 9.3 % annually over the four years compared with 1.9 % annually for the Retail Prices Index during the same period (Office for National Statistics (2019)).¹

Table 4: Changes in parking income and expenditure over previous four years (from most recent year available) across the nations of Great Britain

	England without London	London	Scotland	Wales	Great Britain
Most recent year available	(2018-19)	(2018-19)	(2016-17)	(2017-18)	(2016-17)
Average annual change in income	4.3 %	5.8 %	4.3 %	5.1 %	3.3 %
Change in income since previous year	4.2 %	7.1 %	6.2 %	2.9 %	5.5 %
Average annual change in expenditure	2.8 %	0.0 %	2.4 %	2.0 %	-1.2 %
Change in expenditure since previous year	5.1 %	-0.1 %	1.0 %	2.7 %	1.7 %
Average annual change in surplus	6.1 %	10.2 %	6.3 %	11.6 %	8.6 %
Change in surplus since previous year	3.1 %	11.9 %	11.5 %	3.2 %	9.3 %

¹The most recent data available for Great Britain as a whole is from the year 2016-17 and all calculations are therefore performed for the four years previous i.e. from 2012-13.

3 Income

Parking income is derived from three main sources: meter income, residents' business permits, and penalties. Other sources are towing and storage charges although relatively few councils operate pounds now. Total income in 2018-19 was £1,746 million, 5.3% higher than in 2017-18. In London boroughs the total income was £728 million, 7.1 % more than in the previous year, while the total for the rest of England was £1018million, 4.1 % more than in the previous year.

Table 5 shows the incomes for all the London boroughs for the previous 5 years, their most recent annual change and the average annual change in income over the preceding 5 years. Table 6 has the same information for the top 20 councils outside of London. For a full table of all the local authorities in London see Table 14 in the Appendix.

Table 5: Parking income for London boroughs (£ millions) (*continued*)

Local Authority	2014-15	2015-16	2016-17	2017-18	2018-19	Change 2018-19 on 2017-18	Average annual change since 2014-15
Barking & Dagenham	6.7	7.1	6.4	6.8	8.6	26.9 %	6.6 %
Hillingdon	7.1	7.3	7.2	7.2	7.6	5.6 %	1.9 %
Enfield	10.5	8.0	6.8	6.8	7.6	11.6 %	-7.9 %
Bexley	4.9	4.8	5.6	5.6	7.3	29.5 %	10.4 %
Sutton	2.3	2.5	2.5	2.3	2.3	-2.3 %	-0.6 %
Total for London	581.7	596.2	639.0	680.0	728.0	7.1 %	5.8 %
Total for rest of England	859.7	896.2	935.8	977.5	1,018.0	4.1 %	4.3 %
Total for all of England	1,441.4	1,492.3	1,574.8	1,657.4	1,746.0	5.3 %	4.9 %

In England as a whole 239 councils increased their income over the past year and 98 decreased their income. Another 15 councils' incomes stayed the same. There is one council that did not report income data in this or the previous fiscal year, so we cannot define the change.

The top three English councils by income were Westminster, Kensington & Chelsea, and Camden, and between them accounted for 10.1 % of parking income.

The three councils which had the largest year-on-year percentage increases in income were Staffordshire (up 536.8 %), Pendle (up 148.1 %) and Tandridge (up 83.2 %). The biggest decreases were in Nottinghamshire (75.8 %), and Dudley (50.2 %) (excluding Breckland, Forest of Dean, Hyndburn, and North East Derbyshire where income was under £30,000).

Table 6: Parking income for the rest of England outside London, top 20 councils (£ millions)

4 Expenditure

Overall expenditure on parking rose to £812 million, up 3.3 % from 2017-18 for both on-street and off-street. Expenditure in London went down by -0.1 % and up by 5.1 % in the rest of England. Expenditure represents 43.4 % of income for on-street parking and 50.7 % for off-street.

Table 7 ranks the London boroughs in terms of expenditure on parking while Table 8 lists the top 20 English councils outside London. See Table 15 in the Appendix for a comprehensive list of all 353 local authorities in England.

Overall expenditure has risen by £26 thousand (3.3 %) after a rise of £31 thousand last year.

In England as a whole 230 councils increased their expenditures over the past year and 112 decreased them. Another ten councils' expenditures stayed the same. There is one council that did not report expenditure data in this or the previous fiscal year, so we cannot define the change.

The top three English councils by expenditure Westminster, Ealing, and Lambeth, and between them accounted for 6.3 % of parking expenditure in the country.

The largest increase in expenditure in England occurred in Staffordshire where it increased by 575.4 % while Mid Suffolk and Vale of White Horse increased by 191.4 % and 167.8 % respectively. The biggest decreases were in Selby (197.3 %), and Reigate and Banstead (125.2 %).

In the final columns Tables 7 and 8 also show the proportion of income taken up by costs in each authority for 2018-19. For London boroughs as a group 0.0 % of their parking income was used for expenditure, while for the other authorities in England was 0.1 %, and for England as a whole the number was 0.0 %.

Table 7: Parking expenditure for London boroughs (£ millions)

Local Authority	2014-15	2015-16	2016-17	2017-18	2018-19	Change 2018-19 on 2017-18	Average annual change since 2014-15	Expenditure as pro- portion of income

5 Surpluses

In total, councils in England made a surplus of £934 million in 2018-19, 7.2 % higher than in 2017-18. Of this total, £454 million (48.6 %) came from London and £480 million from the rest of England. This excludes a £2.0 million surplus from parking in National Parks and a £9.5 million surplus from the Nottingham workplace parking levy.

The total *surpluses* for London amounted to £454.4 million between 33 authorities, of which the top three—Westminster, Kensington & Chelsea, and Wandsworth—accounted for 29.2 %.

FunFirstup(FunN2W(surplus.bin[“neg”]))

No lodnon councils made a loss last year (see Table 11).

Overall, parking contributed £454.4 million to local authority finances in London in 2018-19 compared with £406.2 million in 2017-18, an increase of 11.9 %.

Ealing increased their surplus by 87.8 % while Bexley and Barking & Dagenham increased by 56.1 % and 44.0 % respectively. The biggest decreases were in Newham (24.7 %), and Southwark (20.0 %).

None of the London boroughs has had a deficit two years in a row

Table 12: Parking surpluses (on-street and off-street) for top 20 councils outside London (£ millions) (*continued*)

Local Authority	2014-15	2015-16	2016-17	2017-18	2018-19	Change 2018-19 on 2017-18
Southend-on-Sea	3.3	4.2	4.5	4.8	5.1	6.6 %
Total deficit	-10.0	-7.7	-7.5	-7.7	-8.5	9.2 %
Total surplus	388.4	425.7	448.9	473.1	488.2	3.2 %
All England excl. London	378.4	418.0	441.4	465.3	479.7	3.1 %

The total surplus from parking outside London of £480 million in 2018-19 was 3.1 % higher than in 2017-18. Brighton & Hove was the highest earning council outside London, ranking as the fifth largest nationally, and with a surplus in 2018-19 of £26.0 million, 11.1 % higher than in 2017-18. Table 12 lists the top 20 councils outside of London. The full table for all English councils is available in the Appendix as Table 17 .

The total *surpluses* outside London amounted to £942.6 million between 277 authorities, of which the top three—Brighton & Hove, Birmingham, and Nottingham—accounted for 10.8 %. 43 councils made a loss with the total of parking deficits rising to £8.5 million from £8.1 million last year.

Somerset increased their surplus by 3800.0 % while Blaby and Oldham increased by 1650.0 % and 367.5 % respectively. The biggest decreases were in Stroud (77.7 %), and Nottinghamshire (77.5 %) (excluding Corby, North Lincolnshire, and Warrington with a surplus under £30,000).

Staffordshire increased their deficits by 988.2 % while Dudley and Babergh increased by 129.1 % and 78.6 % respectively. The biggest decreases were in East Cambridgeshire (77.9 %), and North Yorkshire (73.7 %) (excluding Bracknell Forest, West Oxfordshire, and Cumbria with a deficit under £30,000)

6 Congestion charge

The central London congestion charge raised £160 million in 2018-19 net of expenditure compared with £176 million the previous year. This was below the budget of £169 million. For 2019-20 TfL is budgeting £257 million. It is a relatively expensive charge to collect with 30.3 % of the income spent on collection in the current fiscal year.
